AANA Education and Research Foundation Poster Session abstracts presented at the AANA Annual Meeting in San Francisco:

1. Postoperative nausea and vomiting: A comparison of propofol infusion versus isoflurane inhalational technique for laparoscopic patients (Martha A. LeVeque, Martie M. Reigle, Agnes B. Hagan, Francis R. Gerbasi, Kumbla P. Bhakta), 186
2. A descriptive study: The neuromuscular effects of mivacurium chloride in ASA I and II parturients (Sally Woodward-Volz, Lisa Wodtke, Cheryl Hopkins, Roy Alisoglu, Surya Thota), 187

AANA Foundation Poster Session abstracts presented at the AANA Annual Meeting in Washington, DC:

1. Anesthesia risk disclosure in healthy adults (Josie Z. Bell), 508
2. The effects of epidural analgesia on hemostatic parameters during labor, delivery and the postpartum period (Stephanie A. Bressler, Juanita M. Hoskey, Francis R. Gerbasi, Harlen Verrill, John Hebert), 509
3. Classical or amended position: Which is better? (Cecelia M. Cook, Brenda S. Schenk, John Nagelhout, Valdor Haglund), 509
4. The economic considerations of low-flow anesthesia (Elliot Cowart, Lelinda F. Gauuan), 510
5. Frustrated wants and entitlements: An examination of feelings of gratification and grievance among Certified Registered Nurse Anesthetists in the workplace (Michael D. Fallacaro), 510
6. Assessing sensory blockade with alcohol swab and pinprick after subarachnoid block (Barbara Grover, Joanne Rush, John Dooner, Michael Servoss, John Nagelhout), 511
7. Oral midazolam versus meperidine, atropine and diazepam mixture: A comparison of preoperative sedative effects and recovery profiles in pediatric outpatients (Yi-Jen Hung, Carol Pywell), 512
8. The effects of increasing tourniquet time in patients receiving intra-articular morphine combined with bupivacaine for postoperative analgesia in knee arthroscopy patients (Christine Klinken) 512
9. Comparison of 0.125% bupivacaine with fentanyl and 0.125% bupivacaine with sufentanil for continuous labor epidural anesthesia (Shelley J. Kudialis, Ruthanne K. Wirth, Vikas Shah, Joanne Cafarelli, Phillip Bowers, Allan Jarvis), 513
10. A comparison of intraoperative morphine sulfate and methadone on postoperative visual analogue scale pain scores and narcotic requirements (Dale F. Laur, Miriam Mansour, Jeff Sinkovich, Kenneth Betley), 514
11. A descriptive study: Neuromuscular affects of mivacurium chloride in ASA I and II nonparturient females (William B. Long, Mel G. Choponis, Roy Alisoglu, Surya Thota), 514
12. Usefulness of preoperative chest radiographs in elective surgical patients (Susan A . Martin), 515
13. Shh! Someone is listening! Awareness and recall during anesthesia (Ivor Noicely), 515
14. Iliohypogastric/ilioinguinal nerve block with 0.5% bupivacaine decreases pain and length of stay in the postanesthesia care unit in patients who have had inguinal herniorrhaphy (Roger J. Pell, Michael P. Dosch), 516
15. Effect of preoperative oral acetaminophen of postoperative pain in children undergoing tonsillectomy (Michael A. Romej), 516
16. The priming principle using mivacurium chloride (Robert M. Smith, Mary Downey, Mary A. Jarrett), 517
17. Effect of anesthetic technique of morbidity and mortality in arteriovenous fistula creation (Mark D. Solomonson, Michael E. Johnson), 517
18. Intraoperative ketorolac and the incidence of pain, nausea, vomiting, and length of hospital stay in patients undergoing laparoscopic tubal ligation (Shirley Tuorinsky, Bonnie O'Hara, Amy Ertter, Mimi Veloso, LeGrand Pound, Ellen Moeller, Erin Fuhrmann), 518
19. Oxygen-induced pulmonary edema: The role of an isomeric prostaglandin compound (Charles A. Vacchiano; George E. Tempel), 519
20. Intravenous fluid and blood product administration for fluid resuscitation of intoxicated versus nonintoxicated young adult trauma victims (Melynda K. Wallace, Nance P. Von Rotz, Marilyn S. Sommers), 519
